Head Coach Interview ~ D. Eisler~

Oct. 17, 2008

Derek Eisler

China Sharks Head Coach

1. How is the team's condition?

Teams condition is very good, good spirit, we are confident, we are playing well enough to win hockey games and make the Asia League fans very pleased.

2. You moved Shanghai from Beijing. There were over 4000 fans in the Shanghai's opening games. How is the city and fans?

We are in a great section of Shanghai, a lot of young people, that will love the infectious feel that hockey provides, it is a college area, and the people will always come to the arena and see a good game. Yes 4000 people at home opener, which is a great crowd and we hope to build on the popularity of our sport.

3. SHARKS acquired S. McKenna and J. Flaherty. How do they impact to the team?

We have a number of leaders, North Americans and Chinese together they will make a great mix. We have to teach team work and accountability, and we have the right mix of players to get that done.

4. SHARKS is better and better, but still be 7th place with 4 points. How will you improve SHARKS more? How will you build a winning team?

The when we step into the right we have to make good execution of our system, and tempo of game.. Be discipline in all areas and hold each other accountable for playing mistakes and good plays. Yes we are still at the bottom of the table, but the food is good down here also, and we will continue to eat, and fight our way up the ladder one minute at a time.
